## MARKET MANIFESTS METALS ADVANCING LIFE AND STRENGTH

Sudden and Surprising Change After Week of Quiet and Almost Stagnation.

NOTHING IN DAY'S NEWS TO AFFORD EXPLANATION

Stocks, However, Have Been Closely Held During Period of Lethargy.

NEW YORK, July 8.—The stock mar-ted today threw off the letharsy in which it was bound last week and sprang into mersy and animation. The day's trans-scilons rose to a larger total than had-en touched for a month past. There was no direct development in the day's come to account for the opening in form. sent touched for a month past. There is no direct development in the day's news to account for the change in form, and it was attributed to inference drawn an element of speculative operators men the recent action of the market, and which encouraged an embarkation in the committments of some magnitude. The feature most remarked for some imagnitude. The feature of the almost absolute stagnation of the demand. The feature of the almost absolute stagnation of the demand from this it was deduced that it would seaty to advance prices by courageous individual well-directed efforts and a moderate ecumulation of holdings. Such an accumulation was evident today, accompanied by determined bidding up of prices in its sake, often renewed after occasional suites, which denoted that the supply of stocks offered at the advanced levels for stagnature of the day's dealings was he large orders from single sources, the sumber of buying orders for 10,000 shares and upwards in different stocks attracting much notice. In the bond market there are a perceptible buying that was believed to come from investment sources at his, although in moderate volume, as regarded with satisfaction. With the arrival of the week of the best and abroad was widence of the healthtion in financial effairs growing out of the doubts over the political future would be dissipated, four markets both here and abroad was widence of the renewed relaxation diowing the July settlement. Discounts were quotably lower in foreign money arises and the prevailing call loan rate berwas 14 per cent, with manifest presure to place funds.

There was a sharp advance in the London copper market and the mining smelt-

se to place funds.

here was a sharp advance in the Loncopper market and the mining smeltstocks were conspicuous in the day's
ance. Large resimptions in the steel
in the Pittsburg district were a
stiff factor.

Ills in the Pittsburg district were a spini factor.
Another reduction in the two weeks ding June 24th of 36,696 in the number surplus freight cars was contemplated to actisfaction. The return to service die freight cars since the maximum of dervice on April 29th reached the cosing figure of 100,397, leaving, howers, 313,293 cars still idle. The American Railway association committee notes at 20 to 25 per cent of the latest decase is accounted for retirement of all order" cars which are sent to the pair shops and make way for re-empendent of idle cars. Bonds were irregular. Total sales, par its 11,214,000. United States 2s declined 21 per cent call.

## . MARKET FOR GRAINS IN FOREIGN MARKETS IS UNUSUALLY STRONG

Gains in Copper, Tin and Lead Bullish Sentiment Prevails in Large Consignment of Straw-Wheat, Corn and Oats Throughout Day.

> CHICAGO, July 6.-The wheat market was strong all day, with the exception of a short period during the first half hour, when a slight reaction occurred on profittaking. An unexpected advance of more than 1d at Liverpool and the wet weather in Nebraska brought out an active demand at the opening, and throughout the session demand showed little sign of abatement, while at times the offerings were meager. The market also was bullishly inclined by the strength of wheat at all markets, and by weekly statistics, the world's shipments being only a little more than half those of the corresponding week a year ago, while the visible supply decreased 537,000 bushels and the amount on passage decreased 534,000 bushels. The market closed strong. September opened 20ge to 3c higher at 881 (883)c, sold off to 872c, and then advanced to 892c. The close was at 892 (893)c.
>
> Strong cables, small receipts, the advance in wheat, and reports of damage to the growing crop caused strength in the corn market. The close was strong, with prices almost at the top. September opened 40 (20 to 30 ch ligher at 72 (72 cc, advanced to 73 cc and closed at 73 cc.
>
> Onts were strong in sympathy with wheat and corn. The buying was led by shorts. September opened 40 cc and closed at 73 cc.
>
> Provisions were active and strong. Pork was in especially good demand and showed a much greater gain than either lard or ribs. The market was affected by an advance of 10 cc in live hogs, and by the strength in wheat and corn. At the close pork was up 73 cc, lard was 5c higher, and ribs 10c up.

### MODERATE DEALING ON PRODUCE MARKET

berries Has Effect of Reducing Prices.

Business was moderately heavy on the produce market, and housewives were more than pleased to find a marked decrease in the prices of several varieties of fresh fruit. The arrival of a large consignment of strawberries from Bountiful, Farmington and Centerville had the effect of reducing quotations on the fruit to three boxes for 25 cents or 10 cents a box. The berries were of good quality, and the demand was large. Quotations on bananas fell 5 cents on Monday, an excellent variety of the fruit being obtainable for 15 and 29 cents a dozen. Oranges were plentiful, with prices ranging from 20 cents to 55 cents a dozen. Early spring apples retailed at 10 cents a pound, and raspberries blackberries and Logan berries remained at 10 cents a box. Quotations on the three latter, according to the dealers, probably will fail in a day or so.

Dealing on the meat and fish market was not so brisk, and quotations on the various varieties of these eatablex remained unchanged. The greatest demand, however, was for spring lamb.

Evaporated Fruits. NEW YORK, July 6.—The situation in symporated apples remains unchanged. Fancy were quoted at 10@10½c, choice, @9c; prime, 61@7½c; common to fair, 5½ 8@9c; prime, 61@7c; common to lair, 52 @8c.
There is a demand for prunes in small lots but the market generally is dull. California are quoted at 31@13c; Oregons, from 51c to 71c.

The market for apricots was continued at unchanged prices; choice quoted at 10 @101c; extra choice, 11@11ic; fancy, 12@

Peaches were in moderate demand, with choice quoted at \$1@\$2c; extra choice, 9@\$1c; fancy, 10@10ic; extra fancy, 10i@11c; seedles, 5i@6c, and London layers, \$1.25@1.35.
